

Cherry Home Association for Kayak Rack Assignments.

Cherry Home Association has decided to amend the rules for kayak storage beginning in 2024. Any member who has a kayak space reserved this season (2023) will be allowed to keep their same space next year if they are satisfied with their current assignment(s). In order to keep your space(s), you must notify the Association no later than October 31st every year. Kayaks must still be removed for the season, but you will retain your space assignment(s) the following year. Members who do not reply by October 31st will be removed from the assignment roster and will have to request a new rack assignment beginning April 1st the following year.

Please direct any questions on this new policy to the Association point of contact on the web site. Thanks for your participation and we look forward to seeing you on the water!
